Why is UK2Learn the best choice?

UK2Learn has run exciting and engaging international study programmes for almost a decade, and has created a perfect formula that has students coming back time and time again to learn in a safe and stimulating environment.

Led by qualified and experienced teachers, UK2Learn's Summer Programme is a perfect combination of education-based learning and extracurricular activities. This ensures that students have plenty of fun whilst also expanding their knowledge of English and learning new skills.

UK2Learn is a family-run education provider that fully understands the importance of ensuring that students have a strong, trustworthy, and reliable support group around them when they are far away from home. UK2Learn's team become a part of every student's extended family, helping them thrive and get the most out of their experience.

Another reason UK2Learn is the best choice is that local English students join in classes, sports, activities and excursions, meaning international students are able to practise their English with local students of the same age.

UK2Learn's Summer Programme encourages students to use their English language and enables them to try out new activities and improve on existing skills. That is why UK2Learn is the best choice!

Our Venue

UK2Learn's Summer Programme will be held at **King Edward's School**, set in the beautiful countryside village of Witley, within an hour's drive of central London and the south coast of England. UK2Learn's accommodation will be in the main school and all classes and activities will be held in the junior school, **Barrow Hills**. The school has a rich tradition English boarding school heritage with well equipped classrooms, excellent accommodation and modern TV and games rooms, all surrounded by beautiful woodland and large playing fields.

“The food is the best at UK2Learn. I am never hungry!”

English as a Foreign Language (EFL)

UK2Learn understands that students may not want to spend their summer holidays in a classroom. Which is exactly why all of UK2Learn's EFL classes are engaging, creative and most of all just great fun! On the first full day of classes, students complete a short placement test, before being divided into groups according to their age and language ability. Classes have an average of only 10 students and a maximum of 16.

Students will attend a total of 30 hours of EFL classes in the mornings and at the end of their two-week programme they will be presented with a certificate in recognition of all their hard work. At the final certificate ceremony each EFL class will be given the chance to showcase all the fantastic work they have produced to an audience of their fellow students, teachers and even a few parents.
